

Ken Cloke is one of the foremost authorities on the origins of past and present day conflict, and how it is resolved. From the basics of interpersonal relationships and emotions to crime, labor management relations, prejudice, the environment, politics, education and economics, Ken walks us through what it means to become a global citizen on this planet and empowers us with techniques that are different from what we have done unsuccessfully for thousands of years. Ken shows us how to transform our social, economic and political institutions, and help save the planet.

Conflict Revolution will change the way you see the world and your important role in its future.

"Kenneth Cloke proposes that conflict resolution be more than therapeutic talk, and a step from social change to social justice. I have known him since the very beginning of the Sixties, and the insights on these pages come not only from the experience of revolt against the status quo, but the complexities of transforming revolt into reforms in everyday life and long-term reconciliation between antagonists. This wonderful book studies conflict resolution not only between human groupings, but between human beings and the planet we continue to destroy". - Tom Hayden - former California State Senator

"There is no one – no one – more deeply versed in conflict resolution, locally and globally, personally and professionally, privately and politically, than Ken. Take his trainings, read his books, hear him speak, participate in his endeavors. I can count on one hand the number of people who have profoundly influenced my life, my career and my course. Ken is one of them. A tough and realistic intelligence coupled with an enormous and generous heart." - Victoria Pynchon, JD, LLM

"Few people today approach conflict with the wisdom and grace of Ken Cloke. Far fewer possess the ability to provide a clear and detailed roadmap for resolution and transformation. Ken's teachings provide inspiration and courage to those who dream of changing the world, and guidance to those who strive to change themselves. While conflict is a necessary element of the human condition, how we handle it is our choice! This book is a gift to all of us in learning how to make those choices." - Laurel Kaufer, Mediator/Arbitrator; Founder, Mississippi Mediation Project
